TABLE OF CONTENTS

Department-wise surgical instrument catalog — ARK Surgicals 2025

NO.	DEPARTMENT	CODE	OPERATIONS
1	General Surgery	GS	Abdominal Surgery (Laparotomy) · Appendectomy & Bowel Surgery · Wound Management & Dressing
2	Laparoscopy & MIS	LAP	Laparoscopic Cholecystectomy · Laparoscopic Hernia Repair – TEP/TAPP · Laparoscopic Appendectomy · Bariatric Surgery – Sleeve / Bypass
3	Cardiology & Cardiovascular	CARD	Coronary Artery Bypass Graft (CABG) · Valve Replacement Surgery · Thoracic Surgery – Lobectomy / Pneumonectomy
4	Orthopaedics & Trauma	ORTH	Fracture Fixation (ORIF) · Bone Grafting & Osteotomy · Laminectomy & Spinal Decompression
5	Gynaecology & Obstetrics	GYN	Normal & Assisted Delivery · Hysterectomy – Abdominal / Vaginal · D&C; and Uterine Procedures
6	Neurosurgery	NEURO	Craniotomy & Brain Surgery · Spinal Surgery – Discectomy / Fusion
7	Endoscopy & GI Surgery	ENDO	Upper GI Endoscopy & ERCP · Colonoscopy & Lower GI Procedures · HPB Surgery (Hepatobiliary-Pancreatic)
8	Urology & Proctology	URO	Urological Procedures · Anorectal Surgery
9	ENT, Rhinoplasty & Plastic Surgery	ENT	Rhinoplasty & Nasal Surgery · Plastic & Reconstructive Surgery
10	Anaesthesia & Critical Care	ANA	Airway Management · Monitoring & Patient Care

General Surgery

Category Code: **GS**

Essential instruments for abdominal, bowel, wound management, and emergency general surgical procedures.

■ Abdominal Surgery (Laparotomy)

Open surgical access to the abdominal cavity for exploration, repair, or organ resection.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GS-001	Mayo Dissecting Scissors	SS, bevelled blades, 6½" & 7½", straight/curved
ARK-GS-002	Metzenbaum Scissors	Delicate thin blades, blunt tips, 6"/7"/8", straight/curved
ARK-GS-003	Artery Forceps – Kelly/Halsted	Full serration, straight/curved, 5"/6"/8"
ARK-GS-004	Kocher's Artery Forceps	1x2 teeth, full serration, 6"/8"/10"
ARK-GS-005	Babcock Tissue Forceps	Broad flared ends, smooth tips, 6"/8"
ARK-GS-006	Allis Tissue Forceps	4x5 / 5x6 teeth, 4"/6"/8"
ARK-GS-007	Deaver Retractor	Flat handle with hook, 3 sizes available
ARK-GS-008	Balfour Abdominal Retractor	Adjustable side blades, strong curved central blade
ARK-GS-009	Waugh Dissecting Forceps	Plain or 1x2 teeth, 8"/10"
ARK-GS-010	Adson Dissecting Forceps	Cross-serrated, plain or 1x2 teeth, 5"/6"/8"
ARK-GS-011	Needle Holder – Mayo-Hegar	Tungsten carbide inserts, 6"/8", with/without catch
ARK-GS-012	Foerster Sponge Holding Forceps	Fenestrated tip, surface serrated, 8"/10"
ARK-GS-013	Backhaus Towel Clamp	Perforating 1x1 prongs, 4"/5"/6"
ARK-GS-014	Mixter Right-Angled Forceps	Horizontal serration, 6"/8"/9"
ARK-GS-015	Dressing Scissors	Blunt/sharp tips, straight/curved, 5"/6"

■ Appendectomy & Bowel Surgery

Instruments for appendix removal and intestinal resection and anastomosis.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GS-016	Doyen Intestinal Clamp	Atraumatic serrations, longitudinal, straight/curved
ARK-GS-017	Payr Pylorus Clamp	Longitudinally serrated, 2 pairs of lateral blades
ARK-GS-018	Babcock Intestinal Forceps	Atraumatic, double-action, broad flared tips
ARK-GS-019	Lane Tissue Forceps	1x2 teeth, fenestrated, 6"/8"
ARK-GS-020	Iris Scissors	Sharp tips, straight/curved, 4"/6"

**■ Wound Management & Dressing***Wound debridement, dressing change, and suture removal.*

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GS-021	Lister Bandage Scissors	5½"/7½", angled, heavy duty
ARK-GS-022	Esmarch Bandage Scissors	One large finger ring, 9½"
ARK-GS-023	Cheatle Sterilizing Forceps	'S' curvature, serrated, 8"/10"
ARK-GS-024	Waugh Dressing Forceps	Plain or toothed, 8"/10"
ARK-GS-025	Lister Sinus Forceps	Serrated, 6"/8"

Laparoscopy & MIS

Category Code: LAP

Advanced minimally invasive instruments for cholecystectomy, hernia repair, appendectomy, and bariatric surgery.

■ Laparoscopic Cholecystectomy

Keyhole removal of the gallbladder through 3–4 small abdominal ports.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-LAP-001	Trocar Set – 5mm / 10mm / 12mm	Manual folding valve, without insufflation tap, universal fit
ARK-LAP-002	Veress Needle	Spring-loaded safety tip, 120mm / 150mm length
ARK-LAP-003	Laparoscopic Clip Applier	Titanium clips, 10mm, reusable/disposable
ARK-LAP-004	Metzenbaum Laparoscopic Scissors	Double-action, curved, 5mm x 330mm shaft
ARK-LAP-005	Hook Scissors	Single-action, 5mm, rotating shaft
ARK-LAP-006	Maryland Dissector / Grasper	Full serration, 5mm, straight, double-action jaws
ARK-LAP-007	Cobra Grasper	Long jaws, toothed, single-action, 5mm
ARK-LAP-008	Babcock Laparoscopic Forceps	Atraumatic serrations, double-action, 10mm
ARK-LAP-009	Claw Forceps	Single-action jaws, 10mm
ARK-LAP-010	Johan Grasper	Single-action, slightly flat jaws, 5mm
ARK-LAP-011	Spoon Grasper	Double-action jaws, 10mm, for specimen retrieval
ARK-LAP-012	Needle Holder – Straight (Laparoscopic)	Axial handle, ratchet, cleaning port, fail-safe, 5mm
ARK-LAP-013	Needle Holder – Curved (Laparoscopic)	Axial handle, ratchet, 5mm curved jaw
ARK-LAP-014	Fiberoptic Light Cable	4.5mm diameter, 230cm length, universal connector
ARK-LAP-015	Suction-Irrigation Cannula	5mm / 10mm, trumpet valve, reusable

■ Laparoscopic Hernia Repair – TEP/TAPP

Totally Extra-Peritoneal and Trans-Abdominal Pre-Peritoneal hernia repair.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-LAP-016	Dissection Balloon Trocar	Structural balloon for space creation, 10mm
ARK-LAP-017	Micro Scissors – Laparoscopic	Delicate tips, 5mm, straight, single-action
ARK-LAP-018	Locking Grasper Forceps	Ratchet lock, 5mm, straight jaw
ARK-LAP-019	Peanut Dissector	5mm, rotating, for blunt dissection
ARK-LAP-020	Mesh Fixation Tacker	Titanium spiral tacks, 5mm applicator

■ Laparoscopic Appendectomy

Endoscopic removal of the appendix through 3 small port sites.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-LAP-021	Endoloop / Pre-tied Ligature	Vicryl/chromic catgut, 10mm applicator
ARK-LAP-022	Laparoscopic Specimen Bag	5mm introduction, polypropylene, resealable
ARK-LAP-023	Hook Cautery Electrode	L-hook, monopolar, 5mm, rotating
ARK-LAP-024	Curved Dissector – 5mm	Curved jaw, 45° angle, double-action

■ Bariatric Surgery – Sleeve / Bypass

Weight-loss surgery including sleeve gastrectomy and Roux-en-Y gastric bypass.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-LAP-025	Endoscopic Linear Stapler – 45mm	Articulating, 3.5mm / 4.8mm staple height
ARK-LAP-026	Laparoscopic Fan Retractor	5-blade, 10mm, reusable, self-opening
ARK-LAP-027	Nathanson Liver Retractor	Malleable S-shaped, epigastric port, 5mm
ARK-LAP-028	Bougie Calibration Tube	36–40 Fr, silicone, radiopaque stripe

Cardiology & Cardiovascular

Category Code: **CARD**

Precision instruments for open-heart surgery, bypass, valve replacement, vascular, and thoracic operations.

■ Coronary Artery Bypass Graft (CABG)

Open-heart surgery to restore blood flow around blocked coronary arteries using graft vessels.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-CARD-001	DeBakey Vascular Clamp – Curved	1x2 rows non-traumatic fine teeth, curved jaw
ARK-CARD-002	DeBakey Vascular Clamp – S-Curve	S-curve pattern, atraumatic serrations
ARK-CARD-003	DeBakey Vascular Clamp – Double-S	Double S-curve, tangential occlusion
ARK-CARD-004	DeBakey Tissue Forceps – Straight	1x2 rows non-traumatic fine teeth, 6"/8"
ARK-CARD-005	DeBakey Tissue Forceps – Angled	45° angled jaw, atraumatic, 6"
ARK-CARD-006	Potts-Smith Thoracic Scissors	Angled cut, 7"/8"
ARK-CARD-007	Castroviejo Cardiovascular Needle Holder	Straight/curved, spring handle, with/without catch
ARK-CARD-008	DeBakey Bulldog Clamp	Straight/curved, 1½" to 4", atraumatic
ARK-CARD-009	Internal Mammary Artery Retractor	2 interchangeable sized blades, self-retaining
ARK-CARD-010	Harrington Lung Spatula	Flexible wire retractor with finger rest
ARK-CARD-011	Finochietto Rib Spreader	Swivel blades, 8", graduated rack and pinion
ARK-CARD-012	Morse Sternal Retractor	Heavy-duty stainless steel rib spreader
ARK-CARD-013	Tubbs Aortic Dilator	Opening from 8mm to 42mm, graduated sizes
ARK-CARD-014	Duval Lung Forceps	Vertically serrated grasping jaws, 9"
ARK-CARD-015	Allison Lung Spatula	Flexible wire retractor, atraumatic

■ Valve Replacement Surgery

Repair or replacement of cardiac valves — mitral, aortic, tricuspid, and pulmonary.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-CARD-016	Cardiac Valve Retractor Set	Right-angle, multiple hooks, self-retaining
ARK-CARD-017	Pledget Forceps	Long handle, fine tip, 10"
ARK-CARD-018	Charnley Retractor with Weight	Cardiac version with weight system
ARK-CARD-019	Potts-Smith Coronary Scissors – Fine	Delicate angled tips, 5"
ARK-CARD-020	Ryder Long Needle Holder	18cm, fine jaws, tungsten carbide inserts

■ Thoracic Surgery – Lobectomy / Pneumonectomy

Lung lobe or whole-lung removal for cancer, trauma, or chronic infection.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-CARD-021	Davidson Scapula Retractor	Adult and child sizes, flat handle
ARK-CARD-022	Doyen Rib Raspatory	Double-ended periosteum elevator
ARK-CARD-023	Rib Approximators	Rib spreader set with swivel blades
ARK-CARD-024	Overholt Thoracic Clamp	Right-angled, delicate serrations, 8"
ARK-CARD-025	Sarot Bronchus Clamp	Atraumatic, angled jaw, 12"

Orthopaedics & Trauma

Category Code: ORTH

Comprehensive range for fracture fixation, bone grafting, laminectomy, and spinal decompression.

■ Fracture Fixation (ORIF)

Open reduction and internal fixation of long bone fractures using plates, screws, and wires.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ORTH-001	Bone Holding Forceps – Self-Centring	Angled with side lock, 1 serrated jaw
ARK-ORTH-002	Bone Holding Forceps – Heygroves	Straight, serrated jaws, 10"
ARK-ORTH-003	Reduction / Reposition Forceps	Pointed jaws with thread fixation
ARK-ORTH-004	Bone Rongeur – Blumenthal Single-Action	Straight and curved, heavy duty
ARK-ORTH-005	Bone Rongeur – Luer-Stille Double-Action	Double-action, straight and curved
ARK-ORTH-006	Bone Cutter – Liston	Single-action, straight and curved jaws
ARK-ORTH-007	K-Wire Cutter / Plier / Bender	Single-action, stainless steel
ARK-ORTH-008	Universal Bone Drill – Manual T-Handle	With chuck and key
ARK-ORTH-009	Spiral Drill Bit Set	Diameters 2mm–6mm, stainless steel
ARK-ORTH-010	Hexagonal Screwdriver	For cortical/cancellous screws, various sizes
ARK-ORTH-011	Plate Bender	High tensile strength, for DCP/LC-DCP plates
ARK-ORTH-012	Screw Depth Gauge	Sliding scale, 0–60mm, calibrated SS
ARK-ORTH-013	Hohmann Retractor	Straight and angled up to 90°, various sizes
ARK-ORTH-014	Volkman Retractor	Pointed tip, ring handle, 2–4 prongs

■ Bone Grafting & Osteotomy

Harvesting and shaping bone graft material, and corrective bone cutting.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ORTH-015	Volkman Bone Curette	Double-ended, oval and round cups
ARK-ORTH-016	Stille Bone Chisel	Straight and curved, widths 6–25mm
ARK-ORTH-017	Stille Bone Gouge	Straight and curved, 6–25mm
ARK-ORTH-018	Gerzog Bone Mallet	Stainless steel head, ergonomic handle
ARK-ORTH-019	Nylon Head Mallet	Non-metallic head, for delicate work
ARK-ORTH-020	Gigli Saw Handle + Wire	Manual type, flexible, multiple cutting surfaces

■ Laminectomy & Spinal Decompression

Removal of lamina to relieve spinal cord or nerve root compression.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ORTH-021	Kerrison Punch – 45° & 90°	Downward and upward bite, 1–5mm widths
ARK-ORTH-022	Harvey-Jackson Laminectomy Retractor	Movable blades, semi-sharp tips
ARK-ORTH-023	Jansen Retractor – Screw Type	3x3 prongs, screw lock
ARK-ORTH-024	Weitlaner Self-Retaining Retractor	Sharp tips, various lengths

Gynaecology & Obstetrics

Category Code: GYN

Comprehensive instruments for obstetric deliveries, examinations, hysterectomy, and uterine procedures.

■ Normal & Assisted Delivery

Vaginal delivery with and without instrumentation including forceps and vacuum.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GYN-001	Sims Vaginal Speculum – Double-Ended	Small / Medium / Large
ARK-GYN-002	Cusco Bivalve Vaginal Speculum	With side screw, narrow/standard, S/M/L
ARK-GYN-003	Wrigley Obstetrical Forceps	Short handle, pelvic curve
ARK-GYN-004	Simpson Obstetrical Forceps	Long fenestrated smooth blades
ARK-GYN-005	Green-Armytage Haemostatic Forceps	Straight grasping forceps, 8"
ARK-GYN-006	Barnes Episiotomy Scissors	Curved sideways, 5"
ARK-GYN-007	Umbilical Cord Scissors	10cm, curved sideways

■ Hysterectomy – Abdominal / Vaginal

Surgical removal of the uterus via abdominal incision or vaginal route.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GYN-008	Heaney Hysterectomy Forceps	Box joint, double tooth, curved
ARK-GYN-009	Maingot Hysterectomy Clamp	Box joint, 1x2 teeth
ARK-GYN-010	Bonney Myomectomy Clamp	Angled on flat, screw joint
ARK-GYN-011	Doyen Abdominal Retractor	Concave/convex, saddle style, 3 sizes
ARK-GYN-012	Kelly's Retractor	Longer blades, flat handle
ARK-GYN-013	Sims Long Uterine Scissors	Long blades, straight, 10"
ARK-GYN-014	Pozzi Tenaculum Forceps	1x1 prongs, flat tips, detachable rod

■ D&C; and Uterine Procedures

Dilatation and curettage, IUD insertion/removal, and endometrial biopsy.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-GYN-015	Hegar Dilator Set	Set of 10, graduated sizes
ARK-GYN-016	Sims Uterine Sound	Straight, smooth surface, 10"
ARK-GYN-017	Uterine Curette – Sharp / Blunt	Double-ended, standard pattern
ARK-GYN-018	Novak Endometrial Curette	Blunt tip, staggered teeth serrations
ARK-GYN-019	Saunders IUD Removing Hook	Angled curvature, stainless steel
ARK-GYN-020	Winter Ovum Forceps	Straight smooth surface
ARK-GYN-021	Teale Vulsellum Forceps	Curved sideways, 3x4 teeth

Neurosurgery

Category Code: **NEURO**

Highly precise microsurgical and standard neurosurgical instruments for cranial and spinal procedures.

■ Craniotomy & Brain Surgery

Surgical opening of the skull to access and treat brain tumours, bleeds, or arteriovenous malformations.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-NEURO-001	Hudson Brace Bone Drill	With snap-lock chuck, manual type
ARK-NEURO-002	Flat Drill Bit – Cushing Pattern	Various diameters, stainless steel
ARK-NEURO-003	Hudson Burr	Multiple patterns: spherical / oval / flat
ARK-NEURO-004	Malleable Brain Spatula Set	Set of 5, widths 5–25mm
ARK-NEURO-005	Hunt Tumour Grasping Forceps	Uniform diameter, serrated jaws
ARK-NEURO-006	Yasargil Micro Scissors – Bayonet	Flat bayonet, TC-coated tips available
ARK-NEURO-007	Yasargil Micro Needle Holder	Flat bayonet, TC-tip coating available
ARK-NEURO-008	Cushing Nerve & Vessel Hook	Various types: sharp / blunt / angled
ARK-NEURO-009	Penfield Dissector Set	Double-ended, set of 4, TC-coating available

■ Spinal Surgery – Discectomy / Fusion

Removal of herniated disc material and spinal fusion for instability.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-NEURO-010	Cushing Intervertebral Disc Rongeur	Left / Right / Upward bite, 2–5mm
ARK-NEURO-011	Love Nerve Root Retractor	Serrated and non-serrated tips
ARK-NEURO-012	Kerrison Punch – Upward Bite	1–5mm, 40° and 90° angles
ARK-NEURO-013	Nicola Pituitary Curette	Left / Right / Straight, various cup sizes
ARK-NEURO-014	Anderson-Brand Shunt Tunneler	Straight and curved

Endoscopy & GI Surgery

Category Code: ENDO

Instruments for gastrointestinal endoscopy, ERCP, colonoscopy, and open hepatobiliary surgery.

■ Upper GI Endoscopy & ERCP

Flexible endoscopic procedures for oesophagus, stomach, duodenum, and bile duct access.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ENDO-001	Doyen Mouth Gag	With cam-grip rack, Ackland tooth plates
ARK-ENDO-002	Ferguson Mouth Gag	With cam grip, dental plate retractor
ARK-ENDO-003	Collins Tongue Holding Forceps	Fenestrated tip, 6"
ARK-ENDO-004	Yankauer Suction Tube	Double angled, with/without guard
ARK-ENDO-005	Poole Suction Tube	Curved, outer sheath with holes, 9"
ARK-ENDO-006	Endoscopic Biopsy Forceps	Cup jaw, oval, reusable, 2.0mm diameter
ARK-ENDO-007	LED Laryngoscope Set	2-blade and 4-blade set, LED illumination

■ Colonoscopy & Lower GI Procedures

Diagnostic and therapeutic colonoscopic examinations and polypectomy.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ENDO-008	Alan Parks Proctoscope	Small/Medium, disposable and fiberoptic carrier
ARK-ENDO-009	Pratt Proctoscope	Rectal speculum with set screw
ARK-ENDO-010	Haemorrhoid Pile Gun	With forceps, stainless steel
ARK-ENDO-011	St. Marks Rectal Dilator	Graduated, smooth, stainless steel
ARK-ENDO-012	Rectal Biopsy Forceps	Cup jaw, angled, reusable

■ HPB Surgery (Hepatobiliary-Pancreatic)

Open and laparoscopic surgery of liver, bile ducts, and pancreas.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ENDO-013	Randall Stone Forceps	Non-ratcheted, finger ring, angled jaws
ARK-ENDO-014	Bladder Retractor	2 lateral blades, angled central blade
ARK-ENDO-015	Hernia Ring Forceps	Fenestrated jaws, blunt tips
ARK-ENDO-016	Mixer Right-Angle Clamp – Long	Horizontal serration, 9"

Urology & Proctology

Category Code: URO

Specialised instruments for urinary tract, bladder, kidney, prostate surgeries, and anorectal procedures.

■ Urological Procedures

Cystoscopy, transurethral resection, urethral catheterisation, and bladder surgery.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-URO-001	Clutton Urethral Dilator Set	Graduated metal bougies, complete set
ARK-URO-002	Urethral Sound – Metal	Straight and curved, graduated, SS
ARK-URO-003	Vasectomy Fixation Clamp	Atraumatic oval tip, ring-handled
ARK-URO-004	Vasectomy Pointed Forceps	Delicate tip, 5"
ARK-URO-005	Campbell Suprapubic Trocar & Cannula	For suprapubic catheter insertion
ARK-URO-006	Phimosis Forceps	Tubular hole pattern, serrated jaw
ARK-URO-007	Kidney Tray – SS-304	Sizes 6" / 8" / 10" / 12"

■ Anorectal Surgery

Haemorrhoidectomy, fistulotomy, anal fissure surgery, and pilonidal sinus excision.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-URO-008	Alan Parks Rectal Speculum	Small/Medium, slotted middle, screw type
ARK-URO-009	Sims Rectal Speculum	Set screw, slotted in middle
ARK-URO-010	Haemorrhoid Pile Gun with Forceps	Complete set, stainless steel
ARK-URO-011	St. Marks Rectal Dilator	Graduated, smooth, stainless steel
ARK-URO-012	Silver Fistula Probe	Malleable, graduated, 6"

ENT, Rhinoplasty & Plastic Surgery

Category Code: ENT

Instruments for ear, nose and throat surgery, facial plastic procedures, rhinoplasty, and skin grafting.

■ Rhinoplasty & Nasal Surgery

Cosmetic and functional surgery of the nose including septoplasty and turbinate reduction.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ENT-001	Aufricht Nasal Retractor	Solid blade, single-ended
ARK-ENT-002	Senn Retractor	Double-ended, sharp/blunt prongs
ARK-ENT-003	Kilner Alae Retractor	2 sharp prongs, curved
ARK-ENT-004	Malleable Ribbon Retractor	Various widths, flexible stainless steel
ARK-ENT-005	Maltz Backward Cutting Rasp	Double-ended nasal rasp
ARK-ENT-006	Cottle Nasal Speculum	Fenestrated, self-retaining
ARK-ENT-007	Ash Septum Forceps	Universal pattern, stainless steel
ARK-ENT-008	Walsham Nasal Chisel	Right-sided and left-sided
ARK-ENT-009	House Graft Press Forceps	Precision jaw closure, delicate

■ Plastic & Reconstructive Surgery

Skin grafting, flap reconstruction, scar revision, and complex wound closure.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ENT-010	Watson Skin Grafting Handle	Standard size, flat handle
ARK-ENT-011	Braun Skin Grafting Knife	Various blade widths available
ARK-ENT-012	Castroviejo Micro Needle Holder	Straight/curved, with/without catch
ARK-ENT-013	Potts-Smith Micro Scissors	Delicate angled, spring handle
ARK-ENT-014	Henning Plaster Spreader	2 flat serrated blades
ARK-ENT-015	Seutin Plaster Scissors	Curved angled, spring type

Anaesthesia & Critical Care

Category Code: ANA

Airway management, ventilation support, and critical care equipment for anaesthesia and recovery.

■ Airway Management

Intubation, airway maintenance, and ventilatory support during surgical procedures.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ANA-001	LED Laryngoscope – 2 & 4 Blade	LED illumination, also available in fibreoptic
ARK-ANA-002	McCoy Laryngoscope Blade	Fibreoptic Eclipse tilting tip, sizes 2, 3, 4
ARK-ANA-003	Guedel Oropharyngeal Airway	Size 1–5, colour-coded
ARK-ANA-004	Silicon Self-Inflating Resuscitator	Adult/child, self-inflating bag with PEEP valve
ARK-ANA-005	Bain Coaxial Breathing Circuit	Adult, 1.8m length, 22mm connectors
ARK-ANA-006	Rebreathing Bag	2L / 3L rubber, F-A valve compatible
ARK-ANA-007	Portable Electric Suction Apparatus	Single bottle, 350–550 mmHg suction pressure
ARK-ANA-008	Double-Bottle Suction Apparatus	High pressure, 600 mmHg

■ Monitoring & Patient Care

Vital sign monitoring, oxygen therapy, and patient positioning equipment.

ARK CODE	INSTRUMENT NAME	SPECIFICATIONS
ARK-ANA-009	Fingertip Pulse Oximeter	SpO ₂ + pulse rate, LED display
ARK-ANA-010	Digital Blood Pressure Apparatus	Upper arm, auto-inflate, 60-reading memory
ARK-ANA-011	LCD Manual BP Apparatus	Aneroid + stethoscope set, latex-free cuff
ARK-ANA-012	Binaural Stethoscope	Adult/paediatric, SS chest piece, 27cm tubing
ARK-ANA-013	Autoclave – Pressure Cooker Type	Various sizes, SS, 15 lb/in ² working pressure
ARK-ANA-014	Electric Aerosol Disinfectant	1L reservoir, hospital grade

CONTACT & ORDERING INFORMATION

PROPRIETOR	R. Arunraj
PHONE	+91 7539975915
